Nationality: Argentina

FEATURES SKILLS

- Conflict Resolution
- Effective Communication:
- UX/UI Design & Layout:
- Detail-oriented & Creative
- Teamwork Collaboration

TECHNICAL SKILLS

UX/UI Design

- Figma
- Design Systems & Style Guides
- Wireframing & Prototyping (High-Fidelity)
- Responsive Design (Mobile-First approach)
- Usability & Accessibility (WCAG Standards)

Front-End Development

- HTML5 / CSS3 / JavaScript
- Bootstrap
- TailwindCSS
- React.js
- Databases: SQL / MySQL

Management & Collaboration

- Agile Methodologies: Scrum / Kanban
- Productivity Tools: Jira, Confluence, Trello, Azure DevOps, Miro

AI Tools (Efficiency & Workflow)

- Generative AI: Gemini, ChatGPT, GitHub Copilot, DeepSeek

WORK EXPERIENCE

UX/UI DESIGNER

UPWORK - FREELANCE
10-2023-PRESENT

- Translate business requirements into intuitive digital solutions through comprehensive user research and usability testing.
- Deliver high-fidelity mockups and interactive prototypes using Figma, ensuring pixel-perfect implementation.

UX/UI DESIGNER

NO COUNTRY - FREELANCE
01-2023 A 04-2023

I designed the user experience and interface for a web app for an English institute and a barbershop, working in collaborative environments and simulating real team dynamics.

I was responsible for designing user flows, wireframes, and interactive prototypes, applying user-centered design principles to create functional, accessible, and visually appealing solutions.

UX/UI DESIGNER

CODERHOUSE - FREELANCE
06-2022 A 08-2022

- Team Leadership & Agile Methodologies: Led cross-functional teams under the Scrum framework, managing Sprints to ensure high-value iterative deliveries and consistent deadline compliance.
- UX Research & Strategy: Oversaw Desk Research and User Research phases, guaranteeing high-quality insights to optimize information architecture and the end-user experience.
- Design & Iteration: Directed design phases and Usability Testing, ensuring visual consistency, accessibility (WCAG), and alignment with business objectives.
- Technical Handoff & Collaboration: Facilitated effective collaboration between research, design, and development teams, ensuring the technical feasibility of prototypes and a frictionless implementation process.

MY TRAINING

TALENTO TECH

REACT.JS
03-2025 - 07-2025

EDUCACIÓN IT

INTRODUCTION TO UX
08-2017

CODERHOUSE

UX/UI DESIGN
01-2022 - 04-2022

UX/UI DESIGNER

SEMILLERO LATAM - FREELANCE
05-2023 A 10-2023

- Applied User-Centered Design (UCD) principles across all project stages, from initial research to final validation.
- Managed project workflows using Agile methodologies and Trello to ensure timely delivery of design sprints.

UX/UI DESIGNER

CO-UX - FREELANCE
07-2022 A 12-2022

- End-to-End Project Leadership: Spearheaded cross-functional teams throughout all stages of the design lifecycle, including Desk Research, User Research, UI Design, and Usability Testing.
- Agile Project Management: Implemented Scrum frameworks to ensure high-value iterative deliveries within each Sprint, optimizing production timelines.
- UX Strategy & QA: Ensured the quality of research insights and the consistency of Information Architecture, guaranteeing a seamless user experience aligned with business goals.
- Technical Handoff & Collaboration: Facilitated communication between Product and Development teams, ensuring the technical feasibility of designs and pixel-perfect implementation of prototypes

WEB DESIGN

08-2017 A 08-2019 | INTI

- Performed requirements analysis and developed front-end features, providing technical support in results-oriented collaborative environments.
- Ensured cross-browser compatibility and optimized web performance for internal systems.
